

Remarks/Arguments:

This application is allowed, and the Notice of Allowance has been issued, and the Issue fee has been paid.

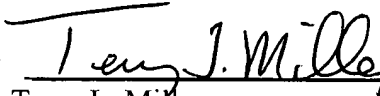

On 29 August 2005, the USPTO issued a Notice of Drawing Inconsistency with Specification, and this amendment is a response to that Notice. It is believed that this amendment fully places the application in proper condition for issuance of the patent.

In view of this amendment, Issuance of the patent to be granted on this application is earnestly solicited. The Examiner is invited to telephone the undersigned at the number set out below if such will further or expedite prosecution of this application.

Respectfully submitted,

Dated: Monday, September 26, 2005
